Metastatic Melanoma

Oncogenic lesions and dysregulation of canonical
signaling pathways – clinical intervention

9:00h

OPENING REMARKS

Rafael Rosell & José Antonio López Martín

9.15 - 10.30h

SESSION I: PRIMARY MELANOMA

Chairs

Josep González Castro. IDERMA, USP Dexeus, Barcelona

María González Cao. Instituto Oncológico Dr Rosell, USP Dexeus, Barcelona

9.15h

Dermatologic and clinical aspects of melanoma: a comprehensive review for non-medical researchers

Cristina Mangas. Ente Ospedaliero Cantonale, Bellinzona, Switzerland

9.30h

Familiar melanoma

Paula Aguilera. Dermatology Department, Hospital Clinic, Barcelona

9.45h

Ultrasound imaging and fine needle aspiration cytology of lymph node

Christiane Voit. Charité University, Berlin, Germany

10.15h

DISCUSSION

10.30 - 12.00h

SESSION II: MOLECULAR BIOLOGY AND PATHOLOGY OF MELANOMA

Chairs

Rafael Rosell. Instituto Oncológico Dr Rosell, USP Dexeus, Barcelona

Antoni Ribas. University of California, Los Angeles CA, USA

10.30h

The key role of the canonical RAS/RAF/MEK pathway in K-RAS driven tumors

Mariano Barbacid. CNIO, Madrid

11.10h

BRAF mutations in cfDNA in blood: lessons from EGFR mutations in cfDNA

Miguel Ángel Molina. Pangaea Biotech, USP Dexeus, Barcelona

11.25h

The role of molecular biology in the diagnosis of melanoma

María Luisa Botero. Pangaea Biotech, USP Dexeus, Barcelona

11.40h

DISCUSSION

12.00 - 12.30h

COFFEE BREAK

CHAIR Rafael Rosell Instituto Oncológico Dr Rosell, USP Dexeus, Barcelona

CO-CHAIR José Antonio López Martín Hospital 12 de Octubre, Madrid

12.30 - 14.30h SESSION III: **LATEST THERAPEUTIC ADVANCES IN MELANOMA (1)**

Chairs

Santiago Viteri. Instituto Oncológico Dr Rosell, USP Dexeus, Barcelona

Alfonso Berrocal. Oncology Department, Hospital General, Valencia

12.30h **Molecular biology of melanoma**

Marisol Soengas. CNIO, Madrid

13.00h **Clinical development of inhibitors of the RAS/RAF/MEK pathway**

José Antonio López Martín. Hospital 12 de Octubre, Madrid

13.30h **Bypassing RAF inhibition in acquired resistance**

Antoni Ribas. University of California, Los Angeles CA, USA

14.10h **DISCUSSION**

14.30 - 15.45h **LUNCH**

15.45 - 17.30h SESSION IV: **LATEST THERAPEUTIC ADVANCES IN MELANOMA (2)**

Chairs

Salvador Martín Algarra. Clínica Universitaria de Navarra, Pamplona

Ana Arance. Hospital Clinic, Barcelona

15.45h **Inhibitors of immune-regulation proteins**

Antoni Ribas. University of California, Los Angeles CA, USA

16.15h **Other target therapies in melanoma**

José Antonio López Martín. Hospital 12 de Octubre, Madrid

16.45h **Is there still room for chemotherapy in melanoma?**

Lessons from EGFR-driven lung cancer

María González Cao. Instituto Oncológico Dr Rosell, USP Dexeus, Barcelona

17.00h **DISCUSSION**

17.30 - 18.00h **CLOSING LECTURE: ONCOGENIC DRIVER MUTATIONS IN MELANOMA AND OTHER TUMORS: NEW OPPORTUNITIES FOR COMBINATORY THERAPIES**

Rafael Rosell. Instituto Oncológico Dr Rosell, USP Dexeus, Barcelona

REGISTRATION BY EMAIL ONLY: IOR@oncorosell.com

Registration fees covered by the organization.

Limited seating.

Reservations will be confirmed in order of request date.

Kindly advise us in case of cancellation.
